

## **FRESH BALLOT PAPERS**

Fresh ballot papers are being issued to voters who are not able to get hold of ballot papers posted to them at their address submitted by voters to MUI office. Fresh ballot papers are issued after furnishing application by voter.

This step is taken to increase the scope of election. Voters are supposed to approach MUI office in person and file application for fresh vote and MUI staff will verify the person and membership and will issue fresh ballot paper.

It has come to notice that members/voters are demanding fresh ballot papers through emails. It is hereby made clear that no fresh ballot paper will be issued based on email application as this could lead to bogus voting if such a practice is allowed.
